- Treating Emerging Contaminants with Thermal Processes
- Lessons from a Certified Reliability Leader
- Managing Land Application for Phosphorus
- Case Studies of Media and Community Communications Successes
- Using the Digital Revolution for Improved Biosolids Management
- Predicting Flooding Risks to Solids Processing
- Gaining Flexibility by Minimizing Solids and Providing Facility Storage
- Leveraging Existing Digestors for Co-digestion High Strength Wastes

## **Announcing the MABA 2022 Webinar Series**

Mid Atlantic Biosolids Association announces its **Bi-Monthly Webinars for 2022**. Mark your 2022 calendar for the noon time hours of Tuesdays, January 18, March 15, May 17, and September 20. We are planning as well as a two-day Summer Technical Symposium, July 19 and 20 and an Annual Meeting seminar November 16. The webinars format is a three-speaker technical presentation, followed by an invited panel response and Q&A from the audience, using the Zoom webinar format. The live events will be recorded for remote viewing.
